

OMDC – Organization for Management and Development Centre

Empowering Rural Education through Modern & Digital Schooling

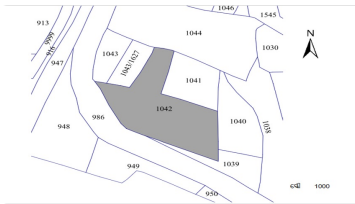

At **OMDC**, we envision a future where every child in rural India has access to world-class education. Our mission is to build a **smart, fully digital school** with free accommodation for underprivileged children in remote villages.

This initiative is not just a school – it's a **transformation hub** for children who otherwise have no access to modern education. With your support, we can make dreams possible.

☀️ Key Benefits of This Project:

- Smart classrooms with tablets, internet, and projectors
- Free lodging and meals for students
- Focus on girl child education
- 100% transparency and NGO accountability
- Support from educationists and volunteers worldwide
