Project Title: Mobility and Accessibility-Donation of Mobility Van to Health Centers for Underserved Communities.

Introduction

In rural and underserved communities, especially in states like Odisha, Jharkhand, Uttar Pradesh, Bihar, and West Bengal, healthcare accessibility remains a significant challenge. These regions, often characterized by their remote locations and lack of proper infrastructure, face difficulties in providing timely and effective medical services. One of the key barriers is the absence of reliable transportation for medical staff and patients, which results in delayed treatments and limited access to healthcare.

The “**Donation of Mobility Van to Health Centers for Underserved Communities**” project seeks to address this gap by providing fully equipped mobility vans to healthcare centers. These vans will not only enhance healthcare access but will also create livelihood opportunities by training local drivers and maintenance personnel. By offering an innovative and sustainable solution, this project will bridge the healthcare gap and uplift communities in need.

Objectives

1. **Improve Healthcare Access:**
To enhance healthcare delivery by providing fully equipped mobility vans that can transport medical personnel and patients in underserved rural areas.
2. **Foster Livelihood Opportunities:**
To create employment opportunities for local communities by training individuals as drivers and maintenance staff for the mobility vans.
3. **Enhance Economic Empowerment:**
By providing sustainable employment, the project aims to economically empower rural communities, especially marginalized Muslim populations in the targeted states.
4. **Promote Sustainable Healthcare Infrastructure:**
To ensure long-term healthcare service availability through the integration of mobility vans into local healthcare systems, supported by maintenance and operational strategies.

Project Scope

This project will focus on the deployment of 25 mobility vans across five states: Odisha, Jharkhand, Uttar Pradesh, Bihar, and West Bengal. Each state will receive five mobility vans, fully equipped with medical accessories, mobility aids, and necessary communication systems. The scope includes:

- **Procurement of Vans:** Purchase of 25 vehicles, each with custom modifications and medical accessories.
- **Deployment and Training:** Deployment of vans to local healthcare centers and training of drivers and maintenance personnel from the local communities.
- **Sustainability Support:** Regular servicing and collaboration with local NGOs and government health programs for operational sustainability.
- **Geographical Focus:** The project will primarily serve rural and underserved areas within the identified states.

Budget Breakdown (Per Van)

Item	Cost (₹)
Base Vehicle Cost	₹17,00,000.00
Medical Accessories (Advanced)	₹2,00,000.00
Mobility Aids	₹1,00,000.00
GPS and Communication System	₹50,000.00
Custom Interior Modifications	₹75,000.00
Branding and Signage	₹25,000.00
Insurance Coverage	₹1,00,000.00
Total Cost Per Van	₹22,50,000.00

Implementation Plan

Phase	Activity	Timeline
Phase 1	Project Approval and Funding	1 Month
Phase 2	Procurement of Base Vehicles	1 Month
Phase 3	Installation of Accessories	1.5 Months
Phase 4	Branding and Insurance Formalities	0.5 Month
Phase 5	Delivery and Deployment to States	2 Months
Total Duration	Project Completion	6 Months

State-Wise Allocation and Costs

State	Number of Vans	Cost (₹)
Odisha	5	1,12,50,000.00
Jharkhand	5	1,12,50,000.00
Uttar Pradesh	5	1,12,50,000.00
Bihar	5	1,12,50,000.00
West Bengal	5	1,12,50,000.00
Total	25 Vans	5,62,50,000.00

Sustainability Plan

1. **Maintenance and Operations:** Regular servicing and upkeep of the vans will be managed by local healthcare centers, ensuring long-term functionality.
2. **Training and Employment:** Drivers and maintenance personnel from local communities will be trained, creating sustainable livelihood opportunities.
3. **Partnerships:** Collaborations with local NGOs and government health programs will ensure operational support and funding for recurring costs.

Key Benefits

1. **Improved Healthcare Access:** Ensures timely mobility for patients and healthcare services in underserved areas.
2. **Economic Empowerment:** Provides livelihood opportunities for drivers and maintenance personnel.
3. **Community Support:** Strengthens healthcare infrastructure in rural Muslim communities.

Conclusion

This project aims to bridge the gap in healthcare accessibility for underserved communities while fostering economic empowerment through employment opportunities. The deployment of mobility vans will create a sustainable impact on the lives of thousands across five states. With your generous support, we can bring this vision to life and make a meaningful difference.

Funding Request
