Project Proposal for - Water Wells - Building Sustainable Water Solutions-2025

Project Details – Water Wells Project

Project Details	Description
Project No	PPF-WWBSWS-OMDC-0014-REV-001
Project Locations	Odisha (OD), Jharkhand (JH), Uttar Pradesh (UP), Bihar (BI), West Bengal (WB), Rajasthan (RJ)
Number of Wells per Location	10- wells per location
Total Number of Wells	60 wells
Cost per Well	\$1,690 (includes materials, Water Wells, labor, transportation, training, and administration expenses)
Total Project Cost	\$101,400 (60 wells × \$1,690 per well)
Project Duration	3 months
Implementation Plan	Wells will be constructed across all six locations simultaneously in a phased approach over 3 months.
Community Engagement	Each location will form Water User Committees for well maintenance and sustainable usage.

1. Project Overview – Modern Water Wells

The **Water Wells Project** will provide **sustainable access to clean drinking water** through modern **tap-connected water wells** for rural communities in **six states: Odisha, Jharkhand, Uttar Pradesh, Bihar, West Bengal, and Rajasthan**.

With **10 water wells per state** (total 60 wells), each equipped with a **storage tank and multiple taps**, the project will serve approximately **12,000–15,000 people**, ensuring:

- Reliable, safe, and hygienic water access
- Reduction in waterborne diseases
- Time savings for women and children, enabling education and livelihood opportunities
- Community ownership and management for long-term sustainability

Project Duration : 3 months

Cost per Water Well : \$1,690

Total Project Cost : \$101,400

The project emphasizes **modern infrastructure, community engagement, and sustainability**, with each well designed for **10–15 years of operation**.

Key Highlights:

- Rapid implementation across six states in a phased manner
- Community training and monitoring for sustainability
- Transparent reporting to donors with photos, videos, and impact stories
- High-impact solution aligned with CSR and FCRA objectives

2. Executive Summary

The **Water Wells Project** aims to construct **60 durable Water wells** across **6 states**, providing sustainable access to clean drinking water for underprivileged communities.

- **Number of Wells:** 60 (10 per state)
- **Estimated Beneficiaries:** 12,000–15,000 individuals
- **Project Duration:** 3 months
- **Total Project Cost:** \$101,400

This initiative will improve health, reduce waterborne diseases, save time for women and children, and empower communities with skills to maintain the wells sustainably.

3. Organizational Overview

OMDC Foundation is an FCRA-compliant NGO with extensive experience in water, sanitation, education, and livelihood projects.

- **Mission:** Empower vulnerable communities through sustainable development solutions.
- **Experience:** Successful implementation of water and sanitation projects benefiting thousands of families.

4. Project Background & Rationale

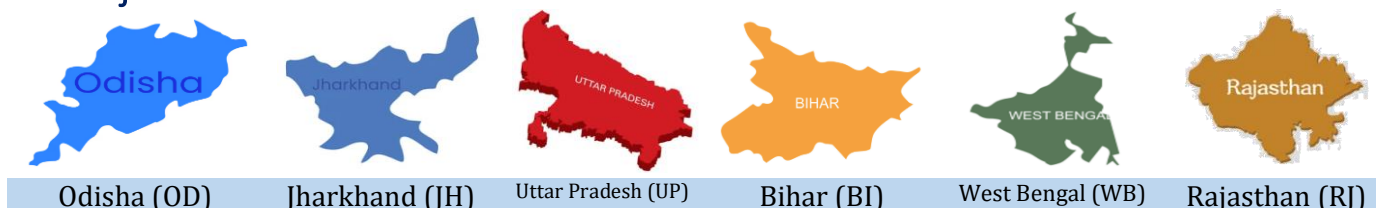

Many rural communities in the target states lack access to safe drinking water, causing **health problems, school absenteeism, and economic challenges**. This initiative aligns with CSR and FCRA goals by creating **long-term, sustainable impact**.

5. Project Objectives

- Provide sustainable clean water to 12,000–15,000 people
- Reduce waterborne diseases and improve health outcomes
- Save time for women and children, enabling education and livelihood opportunities
- Train communities to maintain wells and ensure long-term sustainability

6. Project Locations & Beneficiaries

State	Number of Wells	Estimated Beneficiaries
Odisha (OD)	10	2,000–2,500
Jharkhand (JH)	10	2,000–2,500
Uttar Pradesh (UP)	10	2,000–2,500
Bihar (BI)	10	2,000–2,500
West Bengal (WB)	10	2,000–2,500
Rajasthan (RJ)	10	2,000–2,500
Total	60	12,000–15,000

7. Project Implementation Plan & Timeline

Phase	Activities	Timeline (Months)
Pre-Implementation	Survey, site selection, permissions, awareness sessions	1
Construction/Installation	Material procurement, well digging, water well installation, platform construction	2
Post-Installation	Water testing, community training, signboards	3
Monitoring & Sustainability	Follow-up inspections, maintenance fund, Water User Committee formation	3

8. Project Expenses & Budget

Category	Item	Estimated Cost (USD)
Pre-Implementation	Survey, site selection, permissions, awareness	\$120
Construction	Materials, water well, platform, labor, transportation	\$1,255
Post-Installation	Water testing, community training, signboards	\$170
Monitoring & Sustainability	Follow-up visits, maintenance fund	\$145
Total per Well		\$1,690
Total for 60 Wells		\$101,400

9. Challenges & Mitigation

Challenge	Explanation	Mitigation Strategy
Groundwater Availability	Low water tables in some areas	Hydro-geological survey; alternate sites
Construction Delays	Equipment or labor issues	Backup tools; trained local labor
Community Engagement	Low participation	Awareness sessions; Water User Committees
Financial Constraints	Rising costs	Contingency fund; bulk procurement
Sustainability	Wells may fail	Community training; monitoring visits
Seasonal Drought	Wells may run dry	Deep wells; rainwater harvesting
Logistical Challenges	Remote locations	Local transport; phased deliveries
Cultural Barriers	Gender/caste restrictions	Inclusive discussions; neutral locations

10. Reporting & Visibility

Report Type	Frequency	Details
Photos & Videos	Monthly	Construction and community engagement updates
Progress Reports	Monthly	Milestones, challenges, financial summary
Impact Stories/Testimonials	Bi-Monthly	Community narratives and usage feedback
M&E Reports	End of Project	Comprehensive evaluation and recommendations

Donor Recognition: Signboards at each well, social media updates, and newsletters

11. Lifespan & Sustainability

- **Well Lifespan:** 10–15 years; hand pumps 5–7 years (replaceable parts)
- **Community Ownership:** Water User Committees trained for ongoing maintenance
- **Ongoing Benefits:** Continuous access to safe water, improved health, time savings, and enhanced education and livelihoods

12. Monitoring & Evaluation

- Regular site inspections
- Water quality testing
- Beneficiary feedback
- Final impact report ensuring transparency and accountability

14. Conclusion & Call for Support

The **Water Wells Project** offers a sustainable, high-impact solution to water scarcity. Support will enable **60 wells across six states**, providing clean water to **12,000–15,000 people**, improving health outcomes, and empowering communities for the long term.

15. Du'a for Donors and Beneficiaries

"May Allah reward our generous donors, multiply their blessings, and ease the hardships of those in need. Ameen."

Closing Remarks

As we conclude this proposal, we extend our sincere gratitude to all those who support this essential initiative. The ongoing efforts to distribute food to those in need are not only vital to the well-being of communities but also reflect our shared commitment to fostering a more equitable and compassionate society.

Through the collective efforts of our partners, donors, and volunteers, we are confident that this project will make a lasting impact, bringing relief and support to vulnerable populations across multiple states. We remain committed to transparency, accountability, and the continuous pursuit of our mission to serve and uplift communities in need.

We look forward to the continued collaboration with our esteemed partners and donors to achieve the goals set forth and make a tangible difference in the lives of many.
